SUMMARY

Frontend Developer with 3+ years of experience in building responsive, high-performance web applications using React.js, TypeScript, and JavaScript. Skilled in integrating RESTful APIs, optimizing web performance, and collaborating with cross-functional teams to deliver seamless user experiences.
Leetcode Profile - https://leetcode.com/u/adikharadkar/
Portfolio - https://adikharadkar.github.io/my_portfolio/

WORK EXPERIENCE

Tata Consultancy Services

Frontend Developer   Aug 2021 - Present

In-House Application (Oct 2024 - Present)
- Develop and enhance a modular in-house application that integrates multiple web apps using **React**, **TypeScript**, **JavaScript**, and **Material UI**.
- Leverage the **Olympe** visual programming platform to create and optimize workflows within the application.
- Collaborate with backend teams to seamlessly integrate APIs and ensure efficient data handling.
- Focus on building reusable components and optimizing frontend performance for a consistent user experience.
- Debug, troubleshoot, and resolve frontend issues to maintain application stability and performance.
- Utilize **Git** for version control, ensuring smooth collaboration through proper branching and merging strategies.

E-commerce Retail Platform (Sep 2021 - Sep 2024)
- Developed a dynamic, user-friendly, and responsive UI using **React.js**, **Redux**, **TypeScript**, **JavaScript**, and **Material UI**.
- Implemented brand-based search filters to enhance product discoverability and improve user experience.
- Designed and integrated a shopping cart system requiring users to accept agreements before submitting orders, ensuring compliance.
- Enhanced the order table to display user-submitted orders efficiently with clear data presentation.
- Contributed to middleware development using **Node.js** to map frontend API calls to backend endpoints.
- Coordinated with backend developers to integrate RESTful APIs for seamless data flow.
- Utilized **Git** for version control, implementing best practices for efficient collaboration and code management.

EDUCATION

Dr. Babasaheb Ambedkar Marathwada University

Bachelor in Computer Science - 77.57%   Jun 2018 - Apr 2021

PROJECTS

Web Scraper - A Job Posting Application ↗   Apr 2023 - May 2023
- Developed a **React.js, Node.js, and Python**-based job listing app that provides real-time job postings.
- Implemented **web scraping** with **BeautifulSoup and requests** to fetch up-to-date job data from multiple sources.
- Built a **RESTful backend** with **Node.js and Express.js** to process and serve job listings dynamically.
- Designed a **responsive UI** with **React.js** for seamless job searching by position and location.

Burger Ordering Application 🔗   Sep 2020 - Nov 2020
- Built a **React.js, Redux, and Firebase**-based web app for ordering custom burgers.
- Implemented **user authentication** for secure account creation and login.
- Developed a **responsive UI** allowing users to customize and order burgers.
- Integrated **order management**, enabling users to place and track their past orders.

PROGRAMMING LANGUAGES / TOOLS

- Front End: **React, TypeScript, JavaScript, HTML, CSS**
- Backend: **Node.js, Python**
- Version Control: **Git**
- Front End Libraries: **Material UI**
- CSS Frameworks: **Bootstrap, Tailwind CSS**
